PROFESSIONAL SUMMARY

Network Operations and data professional with 6 years of combined experience in network operations, data analytics, and process optimisation, now extending into AI workflow automation. Monitors 500+ network nodes in real time at Pan African Towers, sustaining 99.8% SLA compliance and cutting MTTR by 30% through root cause analysis (RCA) and standardised RCA templates. Holds a Diploma in AI Automation (Utiva, 2026) and builds automations with n8n, Make, and Zapier, integrating the OpenAI, Claude, Gemini, and OpenRouter APIs and using Claude CLI. Strong in Power BI, SQL, and Excel reporting, with a record of improving data accuracy, uptime, and efficiency.

CORE SKILLS

Network Operations: Fault Management, Root Cause Analysis (RCA), Power Uptime Optimisation, SLA Compliance, Real-Time Monitoring

AI & Automation: n8n, Make, Zapier, Claude CLI, OpenAI API, Claude API, OpenRouter, Gemini API, AI Prompting, Workflow Automation

Data & Analytics: Power BI, Excel (Pivot Tables, Analysis ToolPak), SQL, Tableau, Google Data Studio, Data Governance, Audit Reporting

Databases: PostgreSQL, MySQL, SQLite, Airtable

Systems & Cloud: Microsoft 365 Administration, PowerShell, Active Directory, Windows Server, Linux (Ubuntu), macOS, AWS, Microsoft Azure, Google Cloud Platform, Google Workspace

Monitoring Tools: OWS Dashboards, Galooli RMS, AIO Systems

Collaboration: Git, GitHub, Notion, Microsoft Teams, Slack

PROFESSIONAL EXPERIENCE

Network Operations Centre Operator **Nov 2022 – Present**
Pan African Towers Ltd, Lagos

- Monitor 500+ network nodes in real time using OWS and RMS dashboards, sustaining 99.8% SLA compliance through predictive failure analysis.
- Cut troubleshooting time and mean time to repair (MTTR) by 30% across all regions by designing standardised RCA templates.
- Improved operational efficiency by 40% and reduced downtime by optimising fault-handling workflows.
- Partnered with engineering teams on infrastructure upgrades that increased network throughput by 25%.

Data Analyst / IT Support Officer (Volunteer) **Sep 2020 – Oct 2022**
Kimpact Development Initiative, Osogbo

- Built Power BI dashboards tracking 100,000+ voter records to support electoral analytics and civic engagement reports.
- Improved data accuracy by 18% through data cleaning, pattern identification, validation, and data governance protocols.
- Reduced server downtime by 35% through proactive updates and automation.
- Provided technical support to 50+ staff members, improving day-to-day operational efficiency.

Logistics / Operations Officer **Aug 2020 – Jun 2022**
IFEX Express Limited, Osogbo

- Improved delivery turnaround by 25% by optimising fleet scheduling and route planning.
- Reduced transportation and fuel costs by coordinating logistics operations and vendor activities.
- Analysed operational performance data to identify cost savings and process improvements.
- Maintained accurate logistics documentation and operational records supporting accountability and compliance.

Financial Risk Analyst (Graduate Intern) **Apr 2018 – Sep 2018**
Leadway Assurance Limited, Lagos

- Analysed 100+ financial reports monthly, reducing client portfolio risks by 25%.
- Developed a customer transaction database, improving bookkeeping efficiency by 30%.
- Prepared analytical summaries and audit reports for senior management.

AUTOMATION PROJECTS (TRAINING & PORTFOLIO)

- **Lead Generation Automation:** Built an end-to-end workflow for a training business with four course categories (AI Automation, Cloud Computing, Cyber Security, Web Development). Google Forms captures leads into Make, a router sorts them by category into separate Airtable tables, and a confirmation email is sent to every lead.
- **AI Agent Workflow (n8n):** Built a chat-triggered AI Agent using an OpenRouter chat model, Postgres Chat Memory for persistent conversation history, and multiple RSS Read tool nodes to fetch live feeds. Documented the schema, API samples, and data retrieval approach.

EDUCATION

Postgraduate Diploma in Financial Mathematics – Osun State University, Osogbo, Nigeria
Bachelor of Science in Mathematics – Federal University of Agriculture, Abeokuta, Nigeria

CERTIFICATIONS

- Diploma in AI Automation – Utiva (ACTD-accredited), Credential ID: 34RVXFBKSU73N (2026)
- Diploma in Cloud Computing – PluralCode Academy (2025)
- Cloud Computing – Skill Development Council Canada (2025)
- Data Analysis; Data Analysis with Excel Pivot Tables; IT Help Desk Professional; Complete Excel Course – Udemy (2025)
- Advanced Customer Service Training – Uconnect (2023)
- Virtual Assistant Training – ALX (African Leadership Group) (2022)
- Business Development & Management – The Learnaholics Academy (2018)
- Digital 101 – Digify Africa (2016)

VOLUNTEER EXPERIENCE

- Independent Election Observer, Osun Gubernatorial Election – Kimpact Development Initiative (2022)
- Assistant Presiding Officer, National Presidential Election – Independent National Electoral Commission (2019)

LANGUAGE

English – Proficient (C2)
